

At Such a Time as This: Walking the Way Toward Resurrection

The days of Holy Week remind us not only of Jesus' journey from death to new life, but our own. Together, we walk through the many challenges of our lives mindful of the hope that Easter brings, and we do so in the midst of a community of people walking the same path. Outside of the walls of our parish, we find growing division, and many people experiencing pain. Join us as we prepare to walk with Jesus into Jerusalem, through the streets to the cross and the tomb, and listen for the call to bring the hope of resurrection to a world in need.
